Dear Sirs:

*I am writing this letter today to ask that you **ban** the use of certain antibiotics to fatten livestock in our country. This poses a threat and endangers the value of those drugs for treating life-threatening diseases in humans.*

We have seen how detrimental this continued practice can be. Hospital patients have died because of antibiotic-resistant infections. I myself suffered for a week in hospital because of food poisoning after eating a hamburger.

Please stop this senseless practice for all of our sakes.

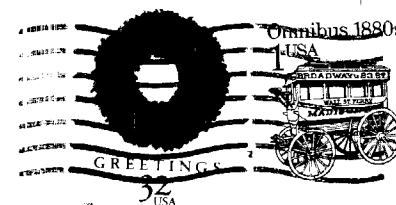

Sincerely,

Carol Logen
